YIFIEYEH ACHESOMIE GONI

AI/ML ENGINEER | APPLIED AI ENGINEERING

Port Harcourt, Nigeria | +234 9076161209 | yifieyeha@gmail.com
Portfolio: https://achesomie-portfolio.vercel.app | **GitHub:** https://github.com/Achese-creator
LinkedIn: https://linkedin.com/in/maverickhoodie

PROFESSIONAL SUMMARY

AI/ML Engineer with hands-on project experience building machine learning and generative AI applications, from data processing and model evaluation to API development and deployment. Skilled in retrieval-augmented generation (RAG), structured LLM extraction, evidence-grounded AI workflows, and explainable machine learning. Combines technical skills with a Biochemistry background and healthcare-related project experience.

TECHNICAL SKILLS

Languages: Python, TypeScript, SQL fundamentals
Machine Learning: scikit-learn, Pandas, NumPy, XGBoost, feature engineering, model evaluation, SHAP
Generative AI: RAG, LLM APIs, LangChain, prompt engineering, structured outputs, tool calling, MCP
Backend & Data: FastAPI, REST APIs, Pydantic, SQLite, ChromaDB, FAISS
Frontend & Tools: React, Vite, Streamlit, Git, GitHub

SELECTED PROJECTS

CONFAM — AI-Assisted Medicine Verification | Python, FastAPI, React, Gemini, SQLite
GitHub: https://github.com/Achese-creator/Confam

- Built an AI-assisted medicine-package checker that extracts product claims from package photos and compares them against available Nigerian medicine registration records and safety alerts.
- Implemented structured extraction, schema validation, user review, deterministic field comparison, and source-aware evidence reporting.
- Integrated live registry lookup with curated local-data fallback, plus agent-based tool calling and Telegram access.

Vault AI — Universal Document Agent | Python, FastAPI, React, Ollama, ChromaDB
GitHub: https://github.com/tag-ecosystemai/c1-accelerators-project-1

- Led backend development and architecture for a local-first document assistant using Ollama-hosted Llama 3.2:3b.
- Implemented retrieval-augmented generation with ChromaDB retrieval, reranking, source citations, and multi-document comparison.
- Collaborated on a team project that placed **2nd**.

Student Performance Prediction | Python, scikit-learn, Pandas, Streamlit

- Led a 10-member team building a student-performance prediction application using a machine learning pipeline and Streamlit.
- Achieved **R^2 = 0.826** and **RMSE = 1.52** with Linear Regression on the project dataset.

EXPERIENCE

Pharmacy Sales Representative | CareMart Pharmacy | Jul 2025–Present

Medical Diagnostic Laboratory Intern | Image Diagnostics | Jul 2022–Jan 2023

EDUCATION

B.Sc. Biochemistry | Rivers State University, Port Harcourt | 2019–2024

CERTIFICATIONS

- AI/Machine Learning Engineering — Tech Crush (American Council of Training and Developement -accredited)
- Python — freeCodeCamp
- National Youth Service Corps (NYSC) | 2025
